EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ms Anne Kornbau on 09-28-05.

The application has been amended as follows:

Specification page 1 numbered paragraph 1 line 2, "08/669,482" was replaced --08/669,472--, and line 2 --now abandoned,-- was inserted before "which".

Claim 1 line 9, "applied" was replaced with --distributed--;

Line 10, --the thermobonding-- was inserted between "in" and "fiber";

Line 11, "product" was replaced with --the web--.

Claim 23 line 8, "applied" was replaced with --distributed--;

Line 9, --thermobonding-- was inserted between "the" and "fiber";

Line 10, "product" was replaced with --the web--.

2. The following is an examiner's statement of reasons for allowance:

While it is known in the art to vary the concentration of binder fibers within a fibrous web as exemplified in the teachings of Takemae et al, Takemae, drawn to making a disk liner, teaches controlling a concentration of binder fibers such that there is a gradual decrease (instead of increase as presently claimed) in binder fibers concentration nearer a surface of the web (col. 4 lines 3-11; figure 2).

Art Unit: 1733

Absent any new reference disclosing the newly added limitation in claim 1 or 23, these claims are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
